

NEOZ

The Darling of Dining Tables

Cordless Lamp Collection 2023

Created by Lighting Designerss

Our range of award-winning NEOZ Cordless Lamps are rechargeable, portable and dimmable, designed with the specific requirements of hotels and restaurants in mind.

We have incorporated over 30 years of experience into the design of every NEOZ Cordless Lamp. What distinguishes our lamps is the impeccable craftsmanship, use of appropriate material, and exceptional quality of light. Our lamps illuminate skin tones, food colours and textures in the best light – critical in the hospitality environment.

NEOZ Cordless Lamps are hand-assembled in Sydney, using only the highest quality components with up to five years warranty to guarantee performance year after year.

Designed By Lighting Designers For Designers

Every NEOZ lamp was carefully conceived by design professionals who specialise in lighting. This is a critical distinction, because it means our lamps are built for function, elegance and longevity.
For lighting quality and serviceability.

A Lighting System Designed for Hospitality

NEOZ products are part of an integrated charging system designed to support hospitality venues worldwide, complimented with a collection of professional grade accessories and products.

A Multi-Award Winning System

We are the pioneers of cordless lighting in the hospitality industry, creating the first cordless lamp in 1995. The NEOZ cordless lighting system is recognised by the leading industry bodies for product innovation and design excellence.

A Built-to-last, Serviceable System

The NEOZ cordless lighting system is designed to be modular, offering maximum flexibility, serviceability and expandability across the life of the product.

No Hassle 5-Year Warranty

Shop with confidence thanks to our dedicated customer service and after-sales support. All NEOZ Cordless Lamps are covered by our industry-leading five year warranty.

Lasting Power

Powered by Japanese-made Panasonic lithium-ion battery cells, providing over 300 hours of light time on a single charge. Select from a range of battery power outputs to suit all users.

Proudly Australian

NEOZ is an Australian company. All our products are conceived, designed, assembled and shipped from our Sydney headquarters.

International Delivery & Approvals

With clients from over 100 countries worldwide, our experienced team will supply and deliver your order almost anywhere in the world.

A' Design Award & Competition 2021

With over 57,000 entries since its inception in 2010, the Milan-based A' Design Award & Competition is one of the most diverse international design awards. The 'Apex' was granted the Golden A' Design Award in Lighting Products and Lighting Projects Design Category by the International Design Academy.

International Design Award Gold 2013

International Design Awards was created by designers, thinkers and entrepreneurs in 2007 as a response to the lack of recognition and celebration for smart and sustainable multidisciplinary design. The 'Cooee' was awarded 1st Prize in the Outdoor Lighting category and 2nd Prize in the Urban Sustainable Design category.

The Good Design Awards 2017

Founded in 1950, the GOOD DESIGN remains the oldest, prestigious, and most recognized program for design excellence. Each year, The Chicago Athenaeum presents the GOOD DESIGN AWARD for the most innovative and cutting-edge designs produced around the world. The 'Tall Poppy' was a winner in the lighting category.

reddot design award

Red Dot Design Award: Product Design 2008

Presented by the Design Zentrum Nordrhein Westfalen in Essen, Germany since 1954. With over 15,000 submissions from 70 countries each year, the Red Dot is one of the most sought-after quality marks for excellent design internationally. The V4 Cordless Lamp System was awarded a RED DOT for product design.

Darc Awards 2017 2nd Place

Darc awards/decorative is the only peer-to-peer international awards that celebrate and focus on decorative lighting within interior design and product designs. Over 200 entries from 30 countries were counted to determine the winners. The 'Tall Poppy' was awarded second place in the Decorative Table Standing Fixture category.

Good Design Australia 1998/2001/2004/2006

Conceived in 1958, the Good Design Awards and its forbearer is Australia's only national design awards for industrial design. The award proudly promotes the very best in design, innovation, and creativity at a national and international level.

Birth of the Cordless Lamp

It all started back in 1995. We worked on the lighting design for Penfold Wine's Magill Estate restaurant in the Adelaide hills with Sydney architects Allen Jack+Cottier.

A significant challenge with restaurant lighting is the need to move tables around and still illuminate them appropriately; we were tasked with designing an electric lamp with no cord to solve this problem. As there were no off-the-shelf battery systems, we designed our own precisely to our requirements. The result was the Magill cordless table lamp.

Twenty-five years on, Magill continues to inspire and amaze, reflecting its elegance and longevity.

Magill

Brushed stainless steel body with partially frosted acrylic providing direct downlight and soft ambient sidelight.

195 x 100 mm

Collins

Opal polymer diffuser with a brushed stainless steel base and top.

195 x 100 mm

Little Collins

Opal polymer diffuser with a brushed stainless steel top.

145 x 100 mm

Redefining a Classic

NEOZ is one of the pioneers in cordless lighting, with the Magill Cordless Table Lamp launch in 1995.

To celebrate its 25th anniversary, our team designed the Apex, a high-quality and sustainable lamp that pays tribute to the original Magill. We kept its pure geometric quality and created a compact and exceptionally robust product that is tactile to handle, simple to recharge, and provides a useful glare-free downlight for tablescapes.

The Apex is precision-milled from solid brass or aluminium alloy and mechanically joined via a clear acrylic machined tube to an internal injection-moulded form. The lamp is fitted with a custom-made slim-profile disc LED to provide dimmable 2600K, 94+ CRI, and 100+ lumens illumination.

Apex

Available in real brass and five eye-catching anodised aluminium colours.
This lamp provides a glare-free direct downlight and soft ambient side light.
Recipient of the GOLD A'Design Award 2021.

208 x 81 mm

Trusted by Chefs & Restaurateurs

For over 20 years, NEOZ Cordless Lamps have been specified for the most respected chefs and their fine restaurants. Here at NEOZ Lighting, we understand the lifelong work and passion that goes into creating the perfect fine-dining experience.

From household names to legends in the industry, such as Gordon Ramsay, Clare Smyth, Alain Ducasse and Thomas Keller, our table lamps are relied upon to provide visually pleasing, simple cord-free solutions for optimal light levels to showcase their culinary creations.

Set the mood right with our collections. Designed with functionality, longevity, and purpose in mind, NEOZ Cordless Lamps reflect the same best-in-class quality that our clients provide in service.

Cooee 1C

Cooee 2

Cooee 2C

Cooee 3

Cooee 3C

The Cooee cordless lamps feature a slim, durable metal body and five distinctive light diffuser designs. Available in Brass, Copper, Anodised Aluminium, Sandblasted Black and Sandblasted Bronze. Winner of the Gold & Silver prizes in International Design Awards 2013.

210 x 90 mm & 220 x 97 mm

Taller, Brighter, Tougher

The 'Tall Poppy' is the culmination of over 20 years of experience in cordless lighting design. Inspired by natural elements such as seashells and plants, its slender ribbed form is diecast in zinc alloy for durability.

The primary design aim was to create a robust battery-powered table lamp that could provide the best dining experience, making the customers feel relaxed and welcome. A good table lamp is not just about having a beautiful form — it is the light quality that makes the biggest difference to the ambiance.

The 'Tall Poppy' is fitted with a custom-built 2600k warm white LED, producing 100+ lumens of downlight for over 10 hours on one charge. The height of the lamp allows for wide-angle light distribution, illuminating a table of up to six diners evenly and completely glare-free.

Each lamp is hand-polished to achieve a superior standard of fit and finish before electroplating, paint or PVD finishes are applied.

Tall Poppy

The Tall Poppy provides a glare-free direct down-light in a slender ribbed form. Its robust solid metal diecast construction ensures durability and is available in a range of electroplated, painted and PVD (physical vapour deposition) finishes. Winner of Chicago Athenaeum's GOOD DESIGN AWARD 2017.

208 x 81 mm

Award-Winning Design

As a design-based manufacturer, we have a long tradition of being pioneers in the lighting field. Since 1983, NEOZ has designed custom floor, wall, table and task lights and, in the 1990s, revolutionised the industry with our award-winning Lightrail and Lightwire track systems.

The NEOZ Cordless Lamp range was first developed in 1995 and awarded the Australian Design Award in 2001, 2004, and 2006. The prestigious international Red Dot Design Award followed for our V4 Cordless Table Lamp System in 2008.

In 2013, our Coeee Lamp range was awarded Gold for the International Design Award under the 'Outdoor Lighting' category and Silver for 'Urban Sustainable Design.' More recently, 'Tall Poppy' was awarded the GOOD DESIGN Award 2017, and 'Apex' was awarded the Gold in A' Design Award 2021.

Owl 1

A dome reflector on a polished metal body,
giving maximum direct downlight
without glare.

Available in stainless steel, brass and copper.

190 x 78 mm

Owl 2

A cylindrical opal diffuser and top plate
on a polished metal body,
providing soft ambient side and downlight.

Available in stainless steel, brass and copper.

190 x 90 mm

Owl 3

An internally ribbed conical diffuser
on a polished metal body,
providing soft ambient side and downlight.

Available in stainless steel, brass and copper.

200 x 95 mm

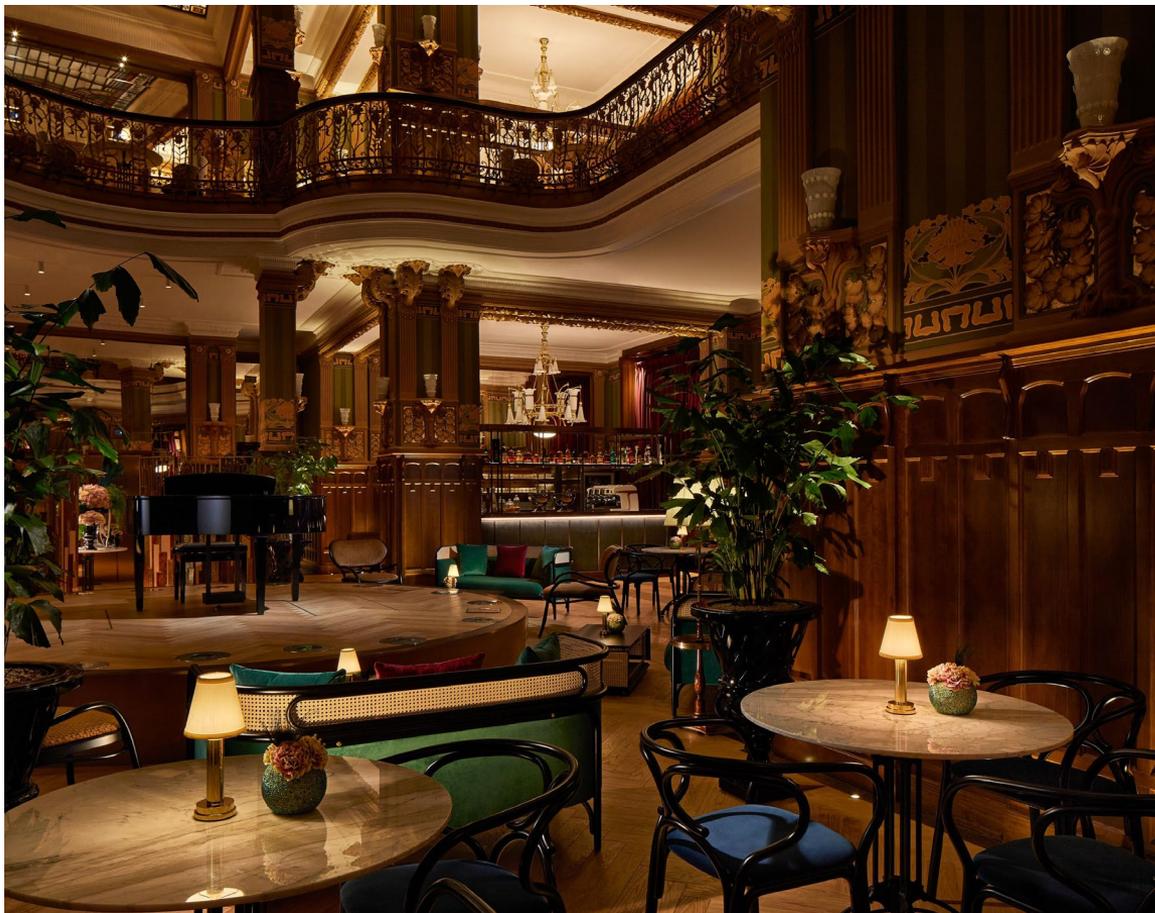

NEW

Triple Delight

One of our most popular designs, the 'Victoria' cordless lamp, is now available with a beautiful hand-blown ribbed glass lampshade alongside the traditional cotton and pleated silk lampshade.

The Victoria lamp's bodies are hot forged from a single ingot of raw brass and machine polished before going through one of three finishing processes. Opt for the classic lacquered finish for a long-lasting, deep lustre or choose the 'Aged Brass' surface finish, a proprietary rapid ageing process creating an authentic 'living' finish where the surface will continue to evolve as you use the lamp.

For those looking for an extra dose of decadence, an 18-karat gold plated finish will be sure to impress.

Victoria

Handmade cotton or pleated silk shade on a solid hot forged brass body.
Available in lacquered brass, aged brass and
18-karat gold plated finish.

275 x 120 mm

Victoria Glass

Hand-blown green, amber or frosted ribbed glass lampshade,
paired with a solid hot forged brass body.
Available in lacquered brass, aged brass and
18-karat gold plated finish.

230 x 116 mm

NEW

Dress to Impress

Crafted from genuine Italian 'Buttero' vegetable-tanned leather, sourced exclusively from Conceria Walpier, Tuscany. This second-generation family-owned tannery boasts over four decades of expertise and commitment to excellence.

'Buttero' is a cowhide full-grain leather of French origin. The aniline finish ensures the colours permeate the leather, maintaining a consistent and vibrant appearance throughout, creating a captivating juxtaposition with the Victoria Lamp's polished hot forged brass body.

The leather sleeve accessory for the Victoria Lamp will be available in three curated colours: Bordeaux, Chestnut, and Olive. Each sleeve is meticulously hand-stitched with 'sand' coloured threads, reflecting the quality craftsmanship behind its creation.

Leather Sleeve Accessories for Victoria

Leather Sleeve Accessories for Victoria

Crafted from genuine Italian Buttero vegetable-tanned leather, sourced exclusively from Conceria Walpier in Tuscany.

Select from our carefully curated colour options of Bordeaux, Chestnut, and Olive. The leather sleeves are designed to fit seamlessly on new and existing Victoria lamp bodies.

NEW

Elegant Symmetry

Inspired by the art-deco skyscrapers of the cultural and financial hub, the Manhattan cordless lamp showcases a dynamic and elegant design. The vertical lines and stepped forms evoke the glamour and optimism of New York.

The body of the Manhattan is CNC milled from solid hot forged brass. The mirror polished surface is left unlacquered and with time will develop a golden patina, bringing out an organic quality with unique colour and texture variation. The Manhattan is available with the choice of five lampshades.

Manhattan Pleated Silk
Visualisation by Ben Robson

Manhattan

Choose from a handmade cotton, pleated silk or ribbed glass shade, paired with a solid hot forged brass body in polished natural finish.

270 x 120 mm & 230 x 116 mm

Lighting the Way

Our design team set out to reinterpret one of NEOZ's bestselling and beloved lamps, the Victoria. The goal was to retain the elegance and refinement of the Victoria design while celebrating the opportunity that scale presents — creating focus, mood and ambience to any entryway or point of interest for restaurants and hotels.

Standing at a substantial 56cm high, the 'Elizabeth' is made of solid brass and polished for a deep lustre. Available in four handmade lampshades and two body finishes.

Elizabeth

Pair a handmade cotton or pleated silk lampshade
on a solid brass or aged brass base.

560 x 270 mm

NEW

“Puttin’ on the Ritz”

Originally made for The Ritz London, the classical style of the Ritz Cordless Lamp embraces the period’s ambience and understated elegance.

Hot forged from a single ingot of raw brass, the Ritz and the more compact Albert are CNC machined and then polished to a deep lustre. The solid brass base is then paired with a handmade lampshade, providing direct downlight and soft diffused sidelight.

Albert

Handmade cotton or pleated silk shade
on a solid forged brass body.

Available in lacquered brass,
aged brass and 18-karat gold plated finish.

275 x 120 mm

Ritz

Handmade parchment or pleated silk lampshade
on a solid forged brass base.

Available in natural brass and
plated satin nickel finish.

275 x 130 mm

Sustainable Luxury

Our new Bellingin lamp celebrates the beauty of sustainable timber in an organic form. Using Camphor Laurel sourced locally from the Bellingin Shire, this beautiful hardwood has delicate layers of rich honey colours, a unique, strong grain, and a crisp camphor fragrance from its natural anti-bacterial oils.

We worked with the local community to identify trees of this invasive evergreen species to harvest. The timber is then crafted into the lamp body using sustainable processes by local craftsman Jack Buchanan, a second generation wood worker. The Bellingin is finished with a natural satin oil, resulting in a water-repellent and dirt-resistant lamp body.

Every piece is unique and celebrates how imperfectly perfect timber is, just as nature intended. Choose between a hand-made cotton lampshade or a hand-blown glass lampshade.

Fit for an Icon

Overlooking the breathtaking views of Sydney harbour, Café Sydney is a favourite for locals and visiting tourists alike.

The bespoke resin cordless lamps were first introduced into the John Morford-designed dining room in 2001. With over 60 lamps, they upgraded to the V4 System in 2008 to take advantage of the improved conductive charging & docking system. This was followed by the light source upgrade from halogen to LED in 2021.

As with all NEOZ Cordless Lamps, they're built to last, and all parts are serviceable. To this day Café Sydney's cordless lamps are still lighting up their tables against one of the most iconic backdrops in the world!

Handcrafted solid resin form encapsulates a reflector providing glare-free lighting in a unique illuminated form.

195 x 140 mm

Importance of Light Quality

Lighting is one of the most critical elements in how people experience a designed environment. Poor lighting choices can negatively impact an otherwise creatively designed space. The lighting solution needs to be aesthetically authentic to the overall design and importantly create a comfortable pleasing ambience.

For over 25 years, we have worked hard to perfect the cordless table lamp through various diffuser forms, offering a choice of light direction and diffusion.

We have developed custom LED light sources in beautiful warm white with a colour rendering index (CRI) of up to 95+, reproducing natural-looking light that presents accurate colours, complementary to skin tones and food colours.

“The FF&E is a critical part of the lighting chemistry; the tone and brightness must play with space as part of the overall scene. An important part of the brief was that each of the tables should have its own glow to light guests’ face, so our solution was to equip each table with a cordless, rechargeable LED lamp by NEOZ.”

Rob Honeywill - MD, Maurice Brill Lighting Design

Service

We strive to design and manufacture quality lighting products that will benefit people and their environments – and we pride ourselves on our quality and service.

The NEOZ Cordless lamp has been designed and engineered with commercial usage in mind, that's why all components are replaceable, serviceable and recyclable.

Testament to our confidence in our products and long term commitment to our clients, every NEOZ Cordless Lamp is backed by our **5 year warranty*** and can be serviced for the life of the lamp.

* Please refer to web link below for your full warranty coverage
<https://www.neoz.com.au/warranty/>

Experience

With nearly 40 years of design and manufacturing experience at NEOZ, we continue to design, develop and assemble from our factory in Terrey Hills in the beautiful forest district of Sydney.

Our products are sold in every continent around the world with clients from over 100 countries.

Our dedicated sales and freight team can assist you to arrange a prompt delivery of your order.

Since 1983

PRO 66hrs+

A Lamp Controller for maximum light operating times with a high capacity 5800mAh Li-ion rechargeable battery for extended service life. Available with a choice of high efficient LED array for perfect colour rendering.

Compatible with 26 table cordless lamp designs, the PRO option provides up to **300 hours*** of light on a single charge.

UNO 13hrs+

Combines a high performance LED array and a single 2900mAh Li-ion rechargeable battery cell with proven NEOZ technology.

A slim compact Lamp Controller compatible with 30 table cordless lamp designs and all charging systems. Provides up to **130+ hours*** of light on a single charge.

Convenient and Built to Last

We do not just make beautiful lamps. Our recharging systems make life easy for you.

Imagine a busy hospitality environment where time is of the very essence – simply dock and charge the lamps. Once docked, the lamps automatically turn off and the charge status indicator lights up. Our docking solutions eliminates the need for unsightly and messy USB cables.

Our recharging systems are engineered to maximise the longevity of the lithium-ion rechargeable battery cell within your NEOZ Cordless Lamp.

Single Lamp Charger
1 Lamp

Recharge or illuminate lamp using mains power. Lamp illuminates on charger with rotation switching.
Standard accessory with home units.

Four interchangeable plugs provided.
Type A, C, G & I
